*Supplement to the South African Journal of Science, October 1978*

A

ABRAMS, R. *and* SIEGFRIED, W. R. .......... 237
*Aedes (Diceromyia) furcifer* (Edwards), Rural epidemic of chikungunya in South Africa with involvement of baboons and ... 267
Aflatoxin $B_1$, (mycotoxin), The metabolic transformation of .......... 200
African swine fever: some observations and considerations .......... 133
African township, Development of an .......... 86
Agricultural congress 77:thought for food .......... 229
Agriculture, Hail damage to and its prevention .......... 327
Aims of first year courses in chemistry according to staff, and students' expectations of such courses .......... 25
Air of South African city and industrial areas, Volatile organic compounds occurring in the .......... 240
Air pollution potential over Southern Africa, Estimates of .......... 270
Alcohol as the fuel of the future, Brazil chooses .......... 130
Alcohols and their solutions, hydrogen bonding structure in .......... 11
Algae (succession of an algae growth potential) in a nitrogen-limited impoundment .......... 151
Algal flagellates with chloroplast endoplasmic reticulum, Evolution from the ciliates .......... 179
Algal growth potential and the succession of algae in a nitrogen-limited impoundment .......... 151
AMBROSIO, R. E. .......... 109
Ammonia excretion by four species of planorbid snails and its in schistosome miracidial host-location .......... 311
Anaesthetic MS 222 on fresh water, some effects of the .......... 351
Analysis of antigenic determinants in tryptic peptides of tobacco mosaic virus protein .......... 215
ANDERSON, A. M. *and* McLACHLAN, I. R. .......... 93
Antigenic determinants in tryptic peptides of tobacco mosaic virus protein, Analysis of .......... 215
Antigens (definitive host) associated with the tegument of *Schistosoma haematobium*, Demonstration of .......... 312
Aphid *Aphis nerii* (B. de F.), Observations on the penetration of the phloem in young stems of *Nerium oleander* (Linn) by stylets of the .......... 276
*Aphis nerii* (B. de F.), Observations on the penetration of the phloem in young stems of *Nerium oleander* (Linn.) by stylets of the asphid .......... 276
Aqueous humour and CSF, Proteins in: effects of paracentesis 152
ASHTON, F. M. *and* DE VILLIERS, O. T. .......... 383
ASHTON, P. J. *and* WALMSLEY, R. D. .......... 151
Asteroid (South African), some chemical and environmental observations upon two species of .......... 146
Australopithecine site (Kromdraai B), Excavation at the .......... 163
*Australopithecus africanus*, A functional interpretation of the sacrum of .......... 308
Australopiths, sociobiological correlates of sexual dimorphism in body weight in South African .......... 143
Autoregulation and haemodynamics of giraffe carotid blood flow 278

B

Baboon (*Papio ursinus*), Dietary lipids and lipoprotein lipase activity of .......... 91
Baboons, Rural epidemic of chikungunya in South Africa with involvement of *Aedes (Diceromyia) furcifer* (Edwards) and .......... 267
BAILEY, J. R. A. .......... 36,102
BARNARD, J. C., *et al.* .......... 24
BARTHAM, W. T., *et al.* .......... 351
Beach (Camps Bay): a pollution survey .......... 342
Bear (fossil) from South Africa .......... 112
Behaviour (Mussel-dropping) of Kelp gulls .......... 337
BELL, L., *et al.* .......... 247
Bifurcations and catastrophes in biomedical engineering .......... 261
Bilharzial immunity and its impact on the definitive host .......... 50
BINYON, J. .......... 146
Bioengineers meet in Cape Town .......... 196
Biological membranes, Mechanism for the translocation of ions across. (Gliding edge dislocations in proteins:) .......... 58
Biologically interesting carbon-fluorine compounds: fluoro-carbohydrates and nucleosides .......... 201
Biomedical engineering, Catastrophes and bifurcations in .......... 261
Birds, A field approach towards assessing the minimum salt load needed to induce salt gland secretion in .......... 184
Blood flow, Autoregulation and haemodynamics of giraffe carotid .......... 278
Bonding (hydrogen) structure in alcohols and their solutions .......... 11
BORSOOK, D. *and* MITCHELL, D. .......... 249
BOORSOOK, D., *et al.* .......... 278
BOTHA, C. E. J., *et al.* .......... 276
Bovids in the Kruger National Park, chromosome evolution in .... 334
Brazil chooses alcohol as the fuel of the future .......... 130
BRINK, A. S. .......... 138
BRINK, G., *et al.* .......... 11
BROWN, J. T. .......... 235
BROWNE R. M. ROBINS- *See* ROBINS-BROWNE, R. M.
BULL, J. R. .......... 199
Buoy (Nimbus VI satellite-tracked) moored on the Mozambique Ridge .......... 384
Bushmen (The last Mountain) of the Eland .......... 387

C

Calcareous nannofossils, Chemical composition of .......... 283
CAMPBELL, C., *et al.* .......... 11
Camps Bay beach: a pollution survey .......... 342
Cape fur seals riding the waves .......... 237
Cape fynbos, Ecological reserves in the: Toward a strategy for conservation .......... 81
Cape Town, Bioengineers meet at .......... 196
Carboyhdrate intake in Diabetes mellitus, controversy over .......... 74
Carbon-fluorine compounds (Biologically interesting): fluoro-carbohydrates and nucleosides .......... 201
Carbonates, "stromatolites" and tuffs in the Lower Permian White Band formation .......... 92
Carotid blood flow, Autoregulation and haemodynamics of giraffe .......... 278
CARTE, A. E. .......... 327
Catastrophes and bifurcations in biomedical engineering .......... 261
Cells (cultured), High frequency, high amplitude oscillations in the amount of 'protein' extractable from .......... 123
Cestode *Ptychobothrium belones* and nematodes of the genus *Contracaecum* from Lake St Lucia, Zululand, On the Life cycles of the .......... 121
CHANDLER, H. D., *et al.* .......... 58
Characterization (and isolation) of temperature-sensitive plasmids defective in transfer, replication and expression of antibiotic resistance .......... 109
*Charibarbitus celetus* Smith 1963 (Pisces, Callionymidae), A redescription of and new locality record, with two further range extensions of the South African ichthyofauna .......... 145
Chemical composition of calcareous nannofossils .......... 283
Chemistry, Aims of first year courses according to staff, and students' expectations of such courses .......... 25
Chikungunya (Rural epidemic of) in South Africa with involvement of *Aedes (Diceromyia) furcifer* (Edwards) and baboons .......... 267
Chlorinated paraffins, Effect of iron impurities on the thermal stability of .......... 219
Chloroplasts of *Pisum sativum* L. var. Alaska, Gibberellin metabolism in .......... 22
Chloroplasts of *Pisum sativum* L. var. Meteor, Transport of 2,3[$^3$H]-gibberellin $A_{20}$ into .......... 149
CHRISTENSEN, M. S. .......... 145
Chromosome evolution in bovids in the Kruger National Park ..... 334
Ciliates, Evolution of algal flagellates with chloroplast endoplasmic reticulum from the .......... 179
Citrus and pineapples, Two novel uses of systemic pesticides on .......... 88
City and industrial areas (South African), Volatile organic compounds occurring in the air of .......... 240
CLARK, R. C. .......... 71
CLARKE, R. J. .......... 46
Classical Greeks, The scandel of (The historical origins of Western Science 2.) .......... 102
Comparison of different parameters for the expression of metabolic activity in isolated mesophyll cells .......... 383
Conference (The Resources): its impact in retrospect .......... 135
*Contracaecum* (nematodes of the genus) and the cestode *Ptychobothrium belones* from Lake St Lucia, Zululand, On the life cycles of .......... 121
Controversy over carbohydrate intake in Diabetes mellitus .......... 74

Cord of spinal frogs, Effects of cobra (*Naja nivea*) neurotoxins on presynaptic inhibition in the ... 119
Corn yields: an early warning system ... 252
Craib (William) and the doublet hypothesis. (Integrity in science:). ... 98
